B. ANALYTICAL TABLE

Note : The numbers given after each article refer to the pages of the Journal on which they are to be found.

A

Acton, Charles, J. Retirement 294.
Administrative Council. (See *Council*).
Advent. 18 000-pound antenna for — satellite programme 100.
Project —, by *William M. Thames* 9.
ADX. Automatic data exchange system 38.
Aerial. New-type UHF — for BBC's London television station 326.
Afghanistan. Personnel changes 266.
Africa. African and Malagasy Union of Posts and Telecommunications (UAMPT) 128.
African Telecommunications Union 213.
Conference in Lagos of the Union of National Radio and Television Organizations of — (UNTRA) 358.
ITU's technical assistance in —, by *Gabriel Corbaz* 283.
Plan Sub-Committee for — meets in Dakar 67.
Preparation for the African Broadcasting Conferences 352.
Triangular Fellowship Programme. Fourteen participants visit the ITU 354.
Visit at ITU Headquarters of representatives of african countries 265.
Agencies. Convention on the privileges and immunities of the Specialized — 29, 62, 230, 376.
Organization of Asian News — (OANA) 100.
Agreement. Regional — for the European Broadcasting Area (Stockholm, 1961) 118, 230, 257, 344, 376.
Regional — for the use of frequencies in the bands 68-73 Mc/s and 76-87.5 Mc/s by the broadcasting service on the one hand and by the fixed and mobile services on the other (Geneva, 1960) 89, 344.
Special — for radionavigation purposes 238.
Special regional — for use of the band 100-104 Mc/s for broadcasting 238, 376.
Treaties and International — registered or filed and recorded with the Secretariat of the United Nations 119, 154.
America. First Regional Meeting for Central American communications 358.
Inter-American Telecommunications Commission (CITEL) 358.
Satellite communication between North and South — 291.
Special technical assistance mission in Central — 34.
Triangular Fellowship Programme. Fourteen participants visit the ITU 354.
American Radio Relay League. New President 213.
Angola. Big radio project nearing completion 357.
Anniversary. Centenary of New Zealand telegraphy 326.
Tenth — of public relations in the French Administration 98.
The BBC is forty years old 357.
Antarctic. Scientists for — research 292.
Antenna. — array in Australia to take pictures of the sun 237.
18 000-pound — for *Advent* satellite programme 100.
Moon bounce with new — 127.
Notch Aerial Tuning Unit for aircraft use 99.
Appleton. Edward (Sir). Telepersonality 48.
Arab (United — Republic). Television 98.
Argentine (Republic). Course on " Dynamics of linear systems " 294.
International Telecommunication Convention (Geneva, 1959) 230.
Personnel changes 266.
Asia. Asian News Agencies form link (OANA) 100.
Deputy Secretary-General's mission 290.
Further Commonwealth cable-link from Australia to South-East — 213.
Submarine cable to connect nine Asian countries 128.
Technical assistance of the Union in — and the Far East, by *P. R. Widdis* 342.
Triangular Fellowship Programme. Fourteen participants visit the ITU 354.
Assembly. (See *Conference).*
Associated Electrical Industries (Woolwich) Ltd. Participation in the work of the CCITT 153.
Auger, Pierre. Telecommunication research (From the UN-UNESCO survey: Current Trends in Scientific Research) 57.
Australia (Commonwealth of). Antenna array to take pictures of the sun 237.
Fire in Australian telephone exchange 36.
Further Commonwealth cable-link from — to South-East Asia 213.
International Telecommunication Convention (Geneva, 1959) 118.
Radio Regulations, Additional Radio Regulations (Geneva Revision, 1959) 118.
Research equipment in NASA space vehicles 238.
Technical assistance in kind 70.
Television 211.
Transistorized radio navigational beacon 212.
Austria. Coaxial cable between — and Italy 292.
Radio Regulations, Additional Radio Regulations (Geneva Revision, 1959) 376.
Special Regional Agreement 238.
Telex dialling between the United Kingdom and Europe 268.
Transmitting station 68.

B

Bardoux, Michel. The ITU Secretariats. Geographical distribution 150.
Békésy von, Georg. The Nobel Prize for Medicine, by *W. Furrer* 25.

Belgium. Inauguration of the VHF/FM networks 5.
International Telecommunication Convention (Geneva, 1959) 376.
Special Agreement for radionavigation purposes 238.
Telex dialling between the United Kingdom and Europe, 268.
Transistors replace valves in United Kingdom- — cable 328.
Bermuda. Telephone cable between — and USA now in service 100.
Board.
International Frequency Registration — (IFRB). Computer 264, 289, 354.
Contribution to technical assistance, Seminars at ITU Headquarters 356.
— officers for 1962 4.
— technical advisers in Cyprus 290.
Mr. Dennis Reynolds resigns 67.
United Nations Technical Assistance — (UNTAB). 55th Meeting in New York 356.
Books. Bibliographic notes :
Audio Frequency Engineering, by *E. Haydn Jones* 88.
Calculable factors in political economy and communications. The limits and new possibilities of planning in advance, by *Dr. Ing. E.h.A.G.W. Jipp* 341.
Communications satellites. Proceedings of a Symposium organized by the British Interplanetary Society in 1961, editor : *L. J. Carter* 372.
Current trends in scientific research, by *Pierre Auger* 56.
Electric and electronic measurements, by *Jacques Thurin* 88.
Electromagnetic relay. Performances. Constitution. Measurements, by *P. Chougnet* 26.
Electronic problems, by *Robert Guillien* 373.
Electronics for Physicists, by *Wolfgang Gruhle* 88.
Elements of electronic circuits. Building bricks for circuit design, by *J. M. Peters* 372.
Error-correcting codes, by *W. W. Peterson* 88.
Fluency graphs. Applications in electrotechnique and electronics. Analogical and digital computers, by *L. P. A. Robichaud, M. Boisvert* and *J. Robert* 117.
Functions of complex variables, by *A. Kaufmann* and *R. Douriaux* 373.
Fundamentals of semi-conductor and tube electronics, by *H. Alex Romanowitz* 341.
General radio course. Vol. II : Amplifier tubes and transistors, by *P. David* and *J. Eldin* 26.
General radio course. Vol. IV : Wave propagation, by *P. David* and *J. Vogé* 26.
Graphs of usual functions for rapid numerical calculations, by *C. Meynart* 117.
International relations in the field of posts and telecommunications, by *Dr. J. Bušák* 220.
International telex directory 26.
Introduction to electrical engineering of higher frequencies, by *H. N. Meinke* 371.
Introduction to Laplace transforms for radio and electronic engineers, by *W. D. Gay* 56.
Introduction to microwave practice, by *P. F. Mariner* 116.
Learning Morse 56.
Physics course. Vol. II : Electricity, by *Marc Jouguet* 373.
Radar — rudiments and uses, by *W. Bopp, G. Paul* and *W. Taeger*, directed by *H. Pooch* 314.
Radio and electronic laboratory handbook, by *M. G. Scroggie* 117.
Radio communications, by *J. H. Reyner* and *P. J. Reyner* 372.
Swedish-English and English-Swedish dictionary of telecommunications terms, by *A. Onnermark* 26.
Telecommunication law — a systematic account, by *Joachim Aubert* 314.
Telecommunication Yearbook 1960/61, by *Prof. Dr. Karl Herz* 371.
Telegraphy and " telex ", by *Daniel Faugeras* 373.
Television engineering. Principles and practice. Vol. IV : General circuit techniques, by *S. W. Amos* and *D. C. Birkinshaw* 372.
Transistor logic circuits, by *R. B. Hurley* 116.
Transmission of information, a statistical theory of communications, by *R. M. Fano* 116.
Use of hyperfrequency ferrite, by *Léo Thourel* 373.
World radio television handbook, by *O. Lund-Johansen* 215.
World trade telex 26.
List of — received in the Library 256.
Boyle, A. William. Cyprus calls in the ITU 337.
Brazil. Television station 236.
British East Africa. International Telecommunication Convention (Geneva, 1959) 62.
Telegraph and Telephone Regulations (Geneva Revision, 1959) 30.
British West Africa. International Telecommunication Convention (Geneva, 1959) 89.
Broadcasting. (See also *Radio*). Inauguration of the VHF/FM networks in Belgium 5.
Preparation for the African — Conferences 352.
Radioamateur stations in Japan 236.
Stations 68.
Transmitters 6, 126, 267.

C

Cable(s). Fishing versus — , by *C. S. Lawton* 49.
Photo and facsimile service across the Atlantic 268.
Radar locates — faults by land or sea 295.
Small diameter coaxial — *Type 174* 128.
System of underwater communication without — 327.
Telephone — 6, 7, 35, 36, 68, 69, 100, 128, 213, 268, 292.
Transistors replace valves in United Kingdom-Belgium — 328.
Calendar. — of ITU Conferences and Meetings 31, 63, 90, 119, 154, 208, 231, 258, 287, 319, 344, 377.
Canada. Cantat Anglo-Canadian transatlantic cable system 35.
CCITT in Montreal 264.
International Telecommunication Convention (Geneva, 1959) 230.
Mr. Acton retires 294.
Radio Regulations, Additional Radio Regulations (Geneva Revision, 1959) 153.
Canadian Broadcasting Corporation. Participation in the work of the CCIR 153.
Cantat. Anglo-Canadian transatlantic cable system 35.
Centenary. (See *Anniversary*).
Centre de recherches de la Compagnie générale d'électricité. Participation in the work of the CCIR 30.
Ceylon. ITU experts in — 238.
Châtelain, Roger C. New Chief of Finance 5.
Chemarin, Auguste. By means of a simple formula : prediction of the volume of communication between communities 275.
Chile. Football and telecommunications 291.
China. International Telecommunication Convention (Geneva, 1959) 29.
Three ITU experts for Chinese training centre 290.
Circuits. (See *Cables and other telecommunications services*).
Club.
International Amateur Radio — (IARC). Inauguration of —'s radio station 211.
Collins Radio Company. Participation in the work of the CCIR and CCITT 230.
Colloquium. (See *Conference*).

Colombia (Republic of). High-power transmitting centre at 2700 metres 237.
Personnel changes 294, 327.
Colt de Wolf, Francis. Telepersonality 16.
Commission.
Inter-American Telecommunications — (CITEL). 358.
Committee.
International Radio Consultative — (CCIR). — at Bad Kreuznach 234.
— Study Groups IV and VIII in Washington 98, 124.
Participation in the work of the — 30, 89, 118, 153, 230, 376.
Plan Sub-Committee for Africa meets in Dakar 67.
Smoothed monthly sunspot numbers 31, 63, 89, 119, 154, 208, 230, 257, 284, 318, 347, 376.
Special Working Party for classification of emissions 235.
Study Groups meet in Paris (Joint group —/CCITT (CMTT) — No. IX) 96.
Xth Plenary Assembly 355.
International Telegraph and Telephone Consultative — (CCITT). — in Montreal 264.
Intense activity. Months of Study Groups meetings 350.
Meetings 34.
Participation in the work of the — 118, 153, 230, 344, 376.
Plan Sub-Committee for Africa meets in Dakar 67.
Study Groups meet in Paris (Joint Group CCIR/ — (CMTT), No. IX CCIR) 96.
Scandinavian — for Satellite Telecommunications. 100.
Space Communications — . Foundation 4.
United Nations — on the Peaceful Uses of Outer Space. 2 Sub-Committees meet in Geneva 238.
Commonwealth. — satellite Conference 213.
Further — link from Australia to South-East Asia 213.
Communications. *ADX* automatic data exchange system 38.
A survey of satellite —, by *Samuel G. Lutz* 107.
A truly global satellite — system, by *Herbert Trotter Jr.* and *Albert C. Embrechts* 330.
By means of a simple formula : prediction of the volume of — between communities, by *Auguste Chemarin* 275.
CEPT Meeting on satellite — 36.
Colloquium in Budapest on microwave — 128.
Commonwealth Satellite Conference 213.
— network to span Syria 357.
Considerations on a world-wide — satellite system, by *Dallas W. Smythe* 269.
Deep space —, by *Eberhardt Rechtin* 215.
Horn radiator 38.
Ionospheric cap theory confirmed by satellite 127.
Laser with peak power of 3 000 000 watts 99.
Light-modulating device for advanced — systems 359.
M. Joachim and *Y. Y. Mao* discuss ways to space — 309.
New crystal grower 7.
Satellite — 99.
Satellite — between North and South America 291.
Solid state microwave — equipment demonstrated by RCA 214.
Soviet space plans 126.
Space — Committee 4.
Space — of the next generation, by *Andrew G. Haley* 39.
Space —. The need and scope for action, by *Gerald C. Gross* 297.
Syncom — satellite 8.
System of underwater — without cables 327.
Taxes on space ? 128.
Telex calls, by *P. F. Eriksen* 368.
Telstar 266, 304, 322, 357.
The NASA. — Satellite Programme, by *Leonard Jaffe* 71.
Compac. The — cable 268.
Compagnie française Thomson-Houston. Participation in the work of the CCITT 118.
Compañia Dominicana de Teléfonos, C. por A. Participation in the work of the CCIR 118.
Companies. (See *under their proper denominations*).
Conference of European Postal and Telecommunication Administrations (CEPT). 36.
Conference(s).
Administrative radio — time for a change ? by *Carl W. Loeber* 54.
Calendar of ITU — and Meetings 31, 63, 90, 119, 154, 208, 231, 258, 287, 319, 344, 378.
CCIR at Bad Kreuznach 234.
CCIR Xth Plenary Assembly 355.
CCIR Study Groups IV and VIII in Washington 98, 124.
CCITT Meetings 34.
CEPT Meeting on satellite communications 36.
Colloquium on microwave communication in Budapest 128.
Commonwealth satellite — 213.
First Regional Meeting for Central American telecommunications 358.
Intense CCITT activity. Months of Study Groups Meetings 350.
International Polytechnic Symposium in New York 36.
Invitations accepted to — or Meetings external to the Union 31, 62, 90, 118, 154, 208, 231, 258, 287, 319, 345, 376.
Meeting with UNESCO 34.
Microwave engineering Seminar in Tokyo 36.
Plan Sub-Committee for Africa meets in Dakar 67.
Preparation for the African Broadcasting — 352.
Radio — and Regulations. Working Group meets at ITU Headquarters 324.
«Radio Day» scientific session in Moscow 235.
Scientific Advisory Panel meets at ITU Headquarters 235.
Second International Television Symposium at Montreux 222.
Special Working Party for classification of emissions 235.
Study Groups meet in Paris (Joint CCIR/CCITT (CMTT) No. IX CCIR) 96.
Symposium on Optical Masers 358.
The impact of computers on —, by *Nikolai I. Krasnosselski* 101.
Two Sub-Committees of the UN Committee on the Peaceful Uses of Outer Space meet in Geneva 238.
United Nations — on Science and Technology 358.
UNTRA — in Lagos 358.
Congo (Republic of the) (Léopoldville). Fellowships granted by the Federal Republic of Germany and ITU to Congolese technicians 96.
International Telecommunication Convention (Geneva, 1959) 29, 89.
Personnel changes 294.
New Member of the ITU 30.
Congress. (See *Conference*).
Convention(s). (See also *Agreements*).
— on the privileges and immunities of the Specialized Agencies 29, 62, 230, 376.
International Telecommunication — (Geneva, 1959) 29, 62, 89, 118, 153, 230, 318, 344, 376.
Corbaz, Gabriel. ITU's technical assistance in Africa 283.
Council.
Administrative —. 17th Session 205, 210.
List of Chairmen and Vice-Chairmen of the Committees of the 17th Session of the — 207.
List of those attending the 17th Session of the — 207.
Economic and Social — of the United Nations (ECOSOC). — and space telecommunication 296.
International — of Scientific Unions (ICSU). Participation in the work of the CCIR 153.
Cyprus (Republic of). — calls in the ITU, by *A. William Boyle* and *Reginald Smith* 337.
ITU technical advisers 290.
Regional Agreement for the European Broadcasting Area (Stockholm, 1961) 376.
Czechoslovak (Socialist Republic). International Telecommuuication Convention (Geneva, 1959) 318.

D

Denmark. Special Agreement for radionavigation purposes 238.
Telex dialling between the United Kingdom and Europe 268.
Diodes. Insulated-base *Zener* — 295.
Documents. (See *Publications*).
Dominican Republic. Personnel changes 98, 213.
Duuren van, Hendrik. Telepersonality 152.

E

Ecuador. International Telecommunication Convention (Geneva, 1959) 230.
Personnel changes 266.
Editorial. A date in telecommunications 233.
A month for the records 123.
Assistance and co-operation 65.
First direct inter-satellite communication 263.
Inauguration of the New Building 159.
International telecommunications and international crisis 349.
ITU computer 289.
Mass media 95.
The ITU in 1961 1.
The Journal and technical terminology 209.
The Space Resolution 33.
UN Development Decade 321.
Electronic Industries Association of Canada. Participation in the work of the CCIR 89.
Electronic(s). ITU computer 264, 289, 354.
New crystal grower 7.
Embrechts, Albert C. A truly global satellite communication system 330.
Eriksen, P. F. Telex calls 368.
Expanded Programme of Technical Assistance (EPTA). — et Fonds spécial 356.

F

Facsimile. Photo and — service across the Atlantic 268.
Far East. Technical Assistance of the Union in Asia and the —, by *P. R. Widdis* 342.
Fiji Islands. UHF for — 327.
Finland. Development of PT 266.
Personnel changes 127.
Telex dialling between the United Kingdom and Europe 268.
France. Regional Agreement for the European Broadcasting Area (Stockholm, 1961) 230.
Satellite communications station 99.
Special Agreement for radionavigation purposes 238.
Study Groups meet in Paris (Joint CCIR/CCITT (CMTT) No. IX CCIR) 96.
Telex dialling between the United Kingdom and Europe 268.
Tenth anniversary of public relations in the French Administration 98.
Frequencies. Parametric oscillations at optical — 237.
Furrer, W. The Nobel Prize for Medicine : Georg von Békésy 25.

G

Gadadhar, Nangapuram. Telepersonality 255.
Gallet, Roger M. The representation of diurnal and geographic variations ionospheric data by numerical methods 129.
Gayer, John H. Vice-Chairman of the IFRB for 1962 4.
General Dynamics/Telecommunication. Participation in the work of the CCITT 376.
General Electric Company. Participation in the work of the CCIR and CCITT 118.
General Telephone and Electronics Corporation. Participation in the work of the CCIR 89.
Germany (Federal Republic of). CCIR at Bad Kreuznach 234.
Earth-satellite tracking station 212.
Football and telecommunication 291.
Satellite communications 99.
Special Agreement for radionavigation purposes 238.
Telex dialling between the United Kingdom and Europe 268.
Ghana. International Telecommunication Convention (Geneva, 1959) 376.
Gifts. — received for the ITU Headquarters 165-181, 184-204, 318, 353.
Greece. Microwave telephone and television network 211.
Gross, Gerald C. Space communications. The need and scope for action 297.
World development of television 222.
Guatemala. Personnel changes 213.
Guinea (Republic of). A Yugoslav's mission in — 325.
International Telecommunication Convention (Geneva, 1959) 89.

H

Haley, Andrew G. Space communications of the next generation 39.
HAM. Where did — come from ? 6.
Hasler S. A. Participation in the work of the CCITT 153.
Hawaii. Tokyo— submarine cable 36.
